Starting the sales of MEIHOTECH's Clipper and Clip from June 1, 2014

May 15,2014

Dear Hartco User and Potential New Customers,

Some customers already understood that Stanley Fastening Systems would discontinue the production and sales of Clipper and Clip until May 31, 2014, with which we, as a partner in Japan, have been doing the business for 40 years.

At the same time, the partnership under the Agreement will be finished after June 1, 2014.

It is the time that MEIHOTECH starts our own Clipper / Clip business globally without "Hartco brand", however, we never forget to continue the unchanged service / support or furthermore to customers who have been using Hartco products.

Even after the date, we will be pleased to serve you our quantity products with the best service for all our valued customers.

If you still have anything unclear, please feel free to ask us by return.

E-mail address : Export-Department@meihotech.co.jp

Sincerely yours,

Yasunari Mochizuki
Manager
